

BIERLEIN

Recently Completed Pulp/Paper Mills Projects:

Georgia Pacific Company – Kalamazoo, MI

Bierlein Asbestos abatement, environmental decommissioning and demolition of 550,000 square foot concrete, brick and steel paper mill in Kalamazoo Michigan

Weyerhaeuser Company – Plymouth, NC

At the Pulp Mill and Bleach Plant, dismantlement and demolition work was performed within active areas of the Weyerhaeuser facility in Plymouth, North Carolina. Project involved the removal of entire units in active areas of the plant. Phase II and III demolition activities at the Weyerhaeuser Plant were on schedule. Crews continued to demolish unused portions of this plant, in addition to processing thousands of tons of scrap steel. All project phases were performed on a lump-sum basis with no cost overruns. All milestone completion dates were met.

Nolichucky Paper Company – Kalamazoo, MI
